

# KEY WAVE

BY ALEX RIVAS

## Welcome to KeyWave

The power of professional piano, right inside your DAW.

Thank you for purchasing KeyWave. This product is the result of years of experience and hard work in music production.

# Product License

## Usage Rights:

- ✓ You may use all loops and MIDI riffs included in KeyWave in your music productions, both for personal and commercial use.
- ✓ Music created with KeyWave is 100% royalty-free — you can sell it, monetize it, or use it in any media.

## Restrictions:

- ✗ You may not resell, redistribute, or share KeyWave or its content in any form.
- ✗ You may not modify and resell the loops or MIDI riffs as a standalone product.
- ✗ You may not sublicense or transfer your license to another person.
- 📌 Note: This license is personal and linked to your account.

# KeyWave Controls Functions

---

## Library

Salsa Volume 1 – First library included with KeyWave, full of modern and traditional montunos. More libraries will be available in the future.

## Chord Progressions

Nashville Number System. Choose the progression that inspires you the most and start creating.

Chord Progression
1-(6m-4-1-5)
2-(5-6m-4-1)
3-(4-1-5-6m)
4-(2m-4-6m-5)
5-(6m-5-3m-4)
6-(6m-5-4-2m)
7-(6m-3m-4-1)
8-(4-1-6m-5)
9-(4-2m-6m-5)

## 🎵 Category

Song parts: Verse, Chorus, Intro, Solo, and more. Filter to find the loop you need.

Category
1- Verses
2- Verse to Pre
3- Pre to Chorus
4- Chorus
5- Caballo (Cha)
6- Reggaeton
7- Cuban Bomba
8- Solos
9- Ballada

---

## 🔊 Loops

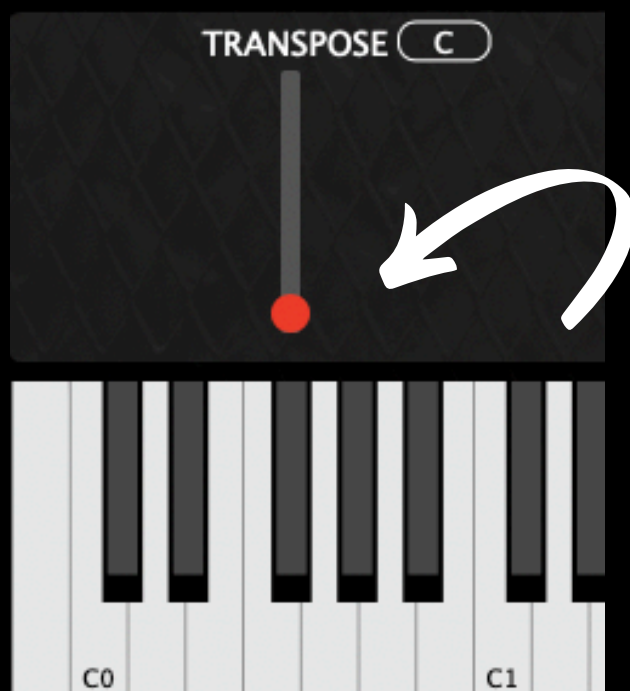

Select and preview the loop before dragging it into your DAW. Create without guessing.

Midi Loops	
Verse 1	
Verse 2	
Verse 3	
Verse 4	
Verse 5	
Verse 6	
Verse Half Tempo 1	
Verse Half Tempo 2	
Verse Half Tempo 3	

## Transpose

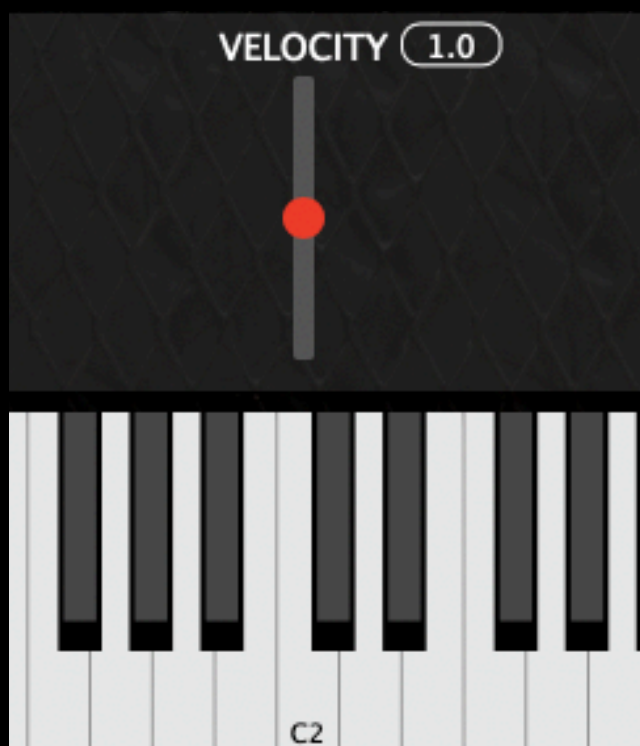

Change the loop key in real time to any note or key.

---

## Velocity

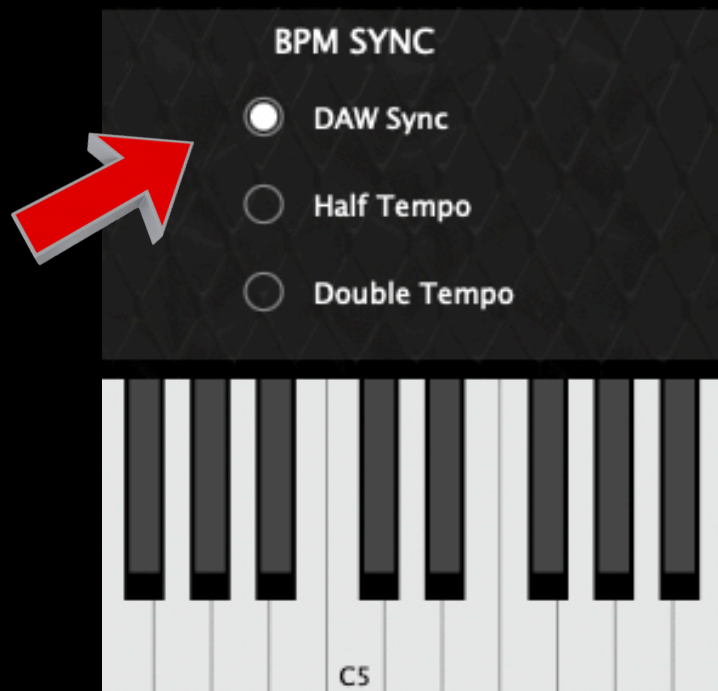

Control the intensity at which MIDI notes are played. Softer or stronger, you decide.

## DAW Sync

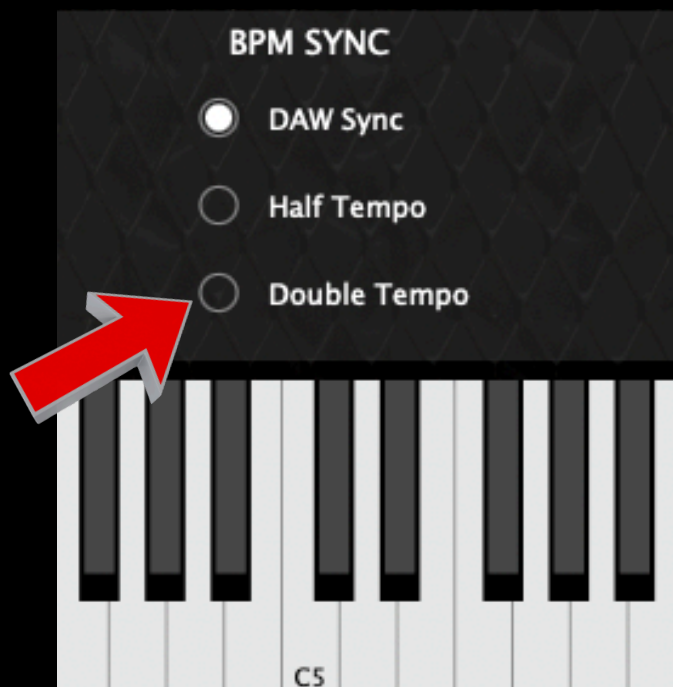

Automatically syncs the loop tempo with your project.

---

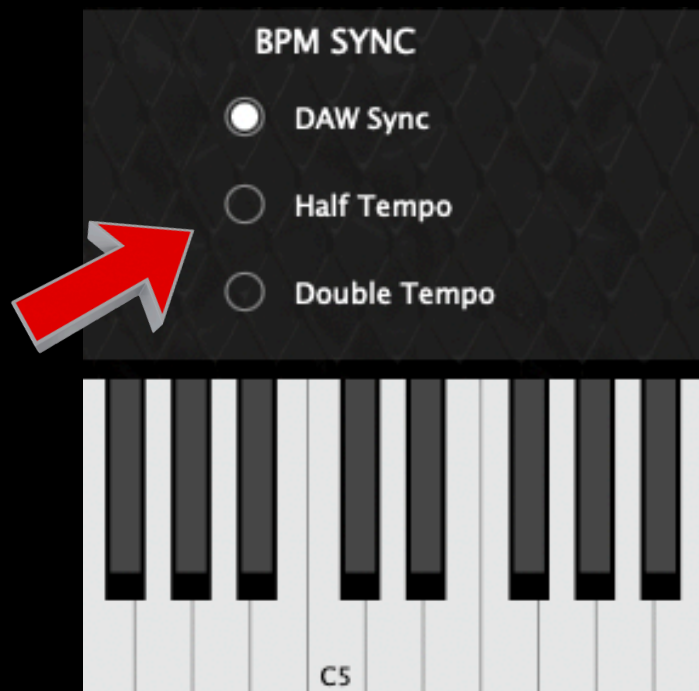

## Double Tempo

Play the loop at twice the project tempo.

## ◀ Half Tempo

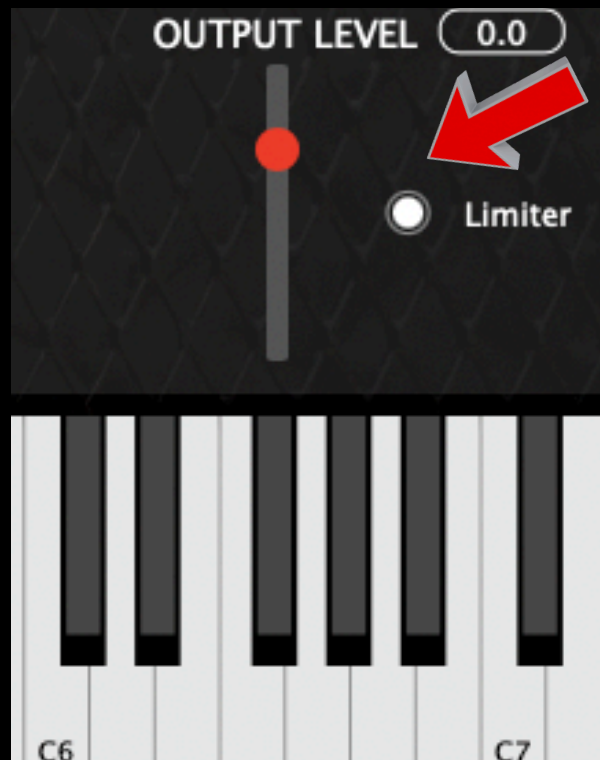

Play the loop at half the project tempo.

---

## ⊘ Limiter

Prevents distortion or clipping in the audio output. Keep your signal clean.

## ☐ Resize

Adjust the plugin window size for a more comfortable workflow. Make it larger or smaller as needed.
